

Machine features:

1. Imported photoelectric detection, one set for horizontal and vertical detection, easy to switch and select, and easy to pack thin and small packages.
2. Automatic feeding, the length is automatically adjusted by the combination of electric eyes and timers.
3. When the product size changes, the adjustment is very simple, without changing the mold and bag maker.

The products after sealing, cutting and heat shrinking are more beautiful, and have the functions of moisture-proof, corrosion-proof and impact-proof.

The automatic sealing and cutting machine is suitable for wrapping and carton packaging of multiple items, and can also be used in conjunction with the automatic packaging line.

Parameters:

Automatic Cutter Vertical Sealing and Shrinking Machine		
Machine model	SPR-5545D cutting	SPR-5030LW tunnel
Power Supply	220V/50-60Hz	380V/50-60Hz
power	3kw	16kw
Product packaging size	L+H≤500mm/W+H≤400mm	L1200xW400*H200mm
Dimensions of sealing knife	L550xW450mm	L1500*W500xH300mm
Packaging speed	20-35pcs/min	20-60pcs/min
Use gas source	6-8kg/cm ³	6-8kg/cm ³
maximum current	10A	26A
Net weight	700kg	650kg
Mechanical dimension	L1850*W1350xH1300mm	L1800*W1100*H1250mm
(Note: the size of the equipment is a standard vertical model, and the model can be customized according to the specific product size.)
