

Machine features:

1. Special design is carried out according to the characteristics of PE film, which solves the difficulties of heat shrinking PE film in the past.
2. Stable performance, greatly saving manpower, reliable quality, high shrinking efficiency, strong applicability; high cost performance, economical and durable, only suitable for heat shrink packaging of PE heat shrink film.

This machine is suitable for heat shrink packaging of large packaging materials such as cement foam insulation boards, cartons, floors, ceramics, or various bottled products with bottom trays such as cans, mineral water, beer, glass bottles, beverages, etc.; at the same time, it can be used in conjunction with a constant temperature PE shrink furnace to achieve the ideal packaging effect for the items.

Parameters:

Cuff type sealing cutting and shrinking machine with tray	
Machine model	SPR-6030A
Power Supply	380V、3f、50-60Hz
power	1.5KW
Product packaging size	L500*W300*H300mm
Dimensions of sealing knife	W:700mm
Packaging speed	8-18pcs/min
Use gas source	6-8kg/cm3
maximum current	10A
net weight	350kg
Mechanical dimension	L1382xW2716*H1991mm
(The equipment size is standard cuff machine model, which can be customized according to the specific product size.)
