

## Machine features:

1. Linear chain transmission and feeding design, the length of packaged products is not limited.
2. It can work independently or can be connected with the production line to automatically feed, wrap, seal and cut, shrink, cool, and shape, unmanned flow operations.

This machine is suitable for heat shrink packaging of large packaging materials such as cartons, floors, ceramics, etc. or cans, mineral water, beer, glass bottles, beverages and other bottled products with bottom trays. It can also be used in conjunction with a constant-temperature PE shrink furnace to make the items ideal. packaging effect.

## Parameters:

High speed straight feed cuff sealing and cutting machine	
Machine model	SPR-6030Z
Power Supply	380V、3f、50-60Hz
Power	2KW
Product packaging size	L*W500*H300mm
Dimensions of sealing knife	W:700mm
Packaging speed	8-22pcs/min
Use gas source	6-8kg/cm <sup>3</sup>
maximum current	10A
net weight	450kg
Mechanical dimension	L1818xW1311xH2132mm
<b>(The equipment size is standard cuff machine model, which can be customized according to the specific product size.)</b>
